

# SAP Application and Information Security Live 2020

Part of the SAP Finance and Risk Live Series

28-29 October, 2020  
Digital Event

Powered by T.A.Cook

THE BEST RUN

# Welcome

We are delighted to bring you **SAP Application and Information Security Live 2020** – a brand new, immersive, and free to attend two day digital event.

With large percentages of workforces now working from home for the first time, there is an increased focus on ensuring the relevant systems can still be accessed, that identities are appropriately managed, privacy rights maintained and security upheld.

Designed for the full ecosystem, this event will give you access to exclusive content from SAP customers including Bayer, Boehringer Ingelheim, Roche, Sanofi and Swiss Post. Learn how these global organisations are building digital trust with innovation from SAP.

In times of change, we can't wait to bring you this reimagined online experience. Attendees will have the opportunity to watch live presentations, catch up with content on-demand, network and connect with other participants, organise one-to-one video meetings, take part in interactive group discussions and explore our virtual exhibition. It's all free of charge and available from the comfort of your home or office!

... and there's more! As part of the **SAP Finance and Risk Live Series**, you will have access to an entire month of networking possibilities and digital content spanning multiple solution areas. Why not read on to learn more?

It's all free of charge and available from the comfort of your home or office!

We look forward to welcoming you virtually this October.

Kind regards,

**Michael Heckner**  
Senior Director, Center of Excellence for GRC  
SAP

**Patricia Clemas Sánchez**  
SVP, Marketing and Events  
T|A|C Events

# What Can You Expect?

## Some Insight into the Agenda

Our two day agenda will feature a range of SAP and exclusive customer content, delivered in live and on-demand formats. Here's what you can expect:

- **SAP Solutions for Cybersecurity and Identity Access Governance**
- **Tool-Supported Authorization Management for SAP Access Control – A Case Study from Swiss Post**
- **Boehringer Ingelheim's Compliant SAP Access Management – Training and Access Risk Integration**
- **SAP Runs SAP – SAP's Experiences as a Customer of Enterprise Threat Detection**
- **Sanofi's perspective on SAP GRC access control integration challenges with SAP FIORI and SAP S/4HANA architecture**
- **User Interface Monitor at Roche – Masking Private Information**
- **Access Governance in SAP S/4HANA - What You Need to Know**

.....Plus further on-demand content from SAP and coffee sessions focusing on everything you have ever wanted to ask about cyber security and data protection, but never have.

# An Immersive Online Experience

## Introducing Pathable!

We are delighted to announce that we will be using Pathable's virtual event platform to host this event. This will provide our attendees with immersive content and learning, seamless networking and interactivity.

### Key features will include:

- Live presentations featuring polling and presenter Q&A
- Interactive group coffee discussions with visual and audio capabilities for attendees
- On-demand content library accessible at a time that works for you
- A virtual show floor showcasing the latest partner innovation
- 1:1 chat functionality with all attendees
- The opportunity to schedule one-to-one and group video calls
- Build your own personalised agenda

## SAP Finance and Risk Live 2020

### One Month. Six Topic Streams. Live and On-Demand Content

SAP's Finance and Risk Live series brings together an unprecedented pool of content for unprecedented times. Over the course of October 2020, finance and risk professionals will have the opportunity to participate in a series of six virtual events covering:

- SAP Intelligent Automation For Finance Live – 1 October
- SAP Treasury and Working Capital Management Live – 6-8 October
- SAP Central Finance Live – 13-15 October
- SAP Billing and Revenue Innovation Management Live – 20-21 October
- SAP Internal Controls, Compliance and Risk Management Live – 26-27 October
- SAP Application and Information Security Live – 28-29 October

**Please note, your registration for one event means you can access the entire month of content!**

Free to attend, participants will be invited to explore a wealth of live and on-demand content delivered by SAP executives, solution experts, business customers and partners.
